[www.tnrmconference.org.au](http://www.tnrmconference.org.au)

 Catering provided

Indigenous Ranger Groups that have identified freshwater turtles as culturally significant in their Healthy Country Plans.

All Australian freshwater turtle species are currently being assessed against Environmental Protection Biodiversity Conservation Act criteria for threatened listing status.

This workshop aims to incorporate traditional Indigenous knowledge in the listing assessment process, particularly for Culturally Significant Species. This information will contribute to the Species Expert Assessment Plans (SEAPs) Project.

### Facilitators

Isabel Ely, Sarah Sutcliffe, Carla Eisemberg, Mick Taylor, Helen Truscott, Cat Kutai.
